- Real-time live call graph display
- Full control on calls and services
- Configurable manager settings
- Compatible with all popular web and mobile browsers
- System information monitoring
Our Solutions

Multi Tenant IP PBX Solution
PBX is referring to Private Branch eXchange in terms of Telephony. In today’s era, PBX is an essential need of any corporate identity. At iNextrix, we are providing PBX systems in form of software to avoid additional hardware cost.

Calling Card Solution
Calling card business is one of the evergreen businesses in the VoIP industry. The PIN-less dialing and callback services have always been in demand. To run a calling card business, it is very important to manage all entities accurately and keep the billing process fast and accurate. At iNextrix, we provide a comprehensive Calling Card Solution to empower the calling card service providers with a widespread feature range.

Faxing Solution (FoIP)
Introduce e-faxing for your staff or customers with the Faxing Solution. The FoIP (Fax over Internet Protocol) solution lets you take benefit of a comprehensive eFaxing system, also known as Fax Server Solution. It supports three different modes of virtual faxing:

VoIP Billing Solution
VoIP billing and management solutions are the wisest choices for several providers looking for reliability and carrier grade performance by providing various services. This may include comprehensive call rates, offer flexible call plans, billing for call usage, LCR and different package offers, prepaid and postpaid VoIP services to get the maximum business fluidity.
Communication with various business entities is an indispensable aspect of any business. The modern business world has crossed the geographical boundaries and your team need to collaborate with different customers, prospects, vendors as well as team members working from different nooks and corners of the world.

Conferencing Solution
Communication with various business entities is an indispensable aspect of any business. The modern business world has crossed the geographical boundaries and your team need to collaborate with different customers, prospects, vendors as well as team members working from different nooks and corners of the world.

Broadcasting Solution
Broadcasting solutions have been in demand since long due to its flexibility to fit into any industry such as Banking, Advertisement, Travel, Political, Announcements etc. Main benefit of using broadcasting solution is the high number of customer reach in small amount of time without any manpower used in it. Key feature is to schedule campaigns on predefined time and get reports out of that.

DID Numbering Solution
Are you a DID service provider? If yes, then you are on right place. DID Numbering system is a complete solution for wholesale DID providers who buys DID ranges from multiple providers and sells them and route them to different locations.

Call Accounting System
Communication is an integral part of any business, but it is often one of the taken for granted or misused assets of the company. To assure your telecommunication infrastructure is used only for productive conversations and to control your telecommunication budget, you need an intelligent Telephone Management System (TMS).

“I have been working with iNextrix, for years. I will continue to do so, due to the very professional support I receive. I would recommend iNextrix for anyone seeking knowledgeable IT professionals, and requiring the very best in support. You will not be disappointed!”

- Yakov Nissen

“I'd like to say that these guys did exceptional !! Samir and his team seemed to work tirelessly to customize app to my need, they integrated exactly to my requirements with the system i use. They proved to be good value for money and made sure all bugs were ironed out during the process. I will continue to work with these guys, our professional relationship has only just begun. Thanks again guys”

- Joel Moss

“Great to work with. Excellent team. Very reasonably priced. Project completed to my specifications. Would work with them again in a heart beat.”First Nations Management System (FNMS).”

- Clement Bernard

“The team at iNextrix really goes above and beyond. They are truly a great resource. Their quality of work and dedication to bringing projects on time and budget is something far too scarce in this space. They are a very professional group and have exceeded our expectations every time. I look forward to our next project!”

- Charles Phillips

“Hi, I just wanted to send you guys a quick message on how great its been working with iNextrix for VoIP development needs, In last 3-4 years, You have been very responsive and always care about delivering the work as much as we do. I am grateful to found you such talented VoIP professionals who always believe in commitment and complete the task on turn time around.”

- Albert Montgomery
