Multi Tenant IP PBX Solution

PBX is referring to Private Branch Exchange in terms of Telephony. In today's era, PBX is an essential need of any corporate identity. At Inextrix, we are providing PBX systems in form of software to avoid additional hardware cost.

Calling Card Solution

Calling card business is one of the evergreen businesses in the VoIP industry. The PIN-less dialing and callback services have always been in demand. To run a calling card business, it is very important to manage all entities accurately and keep the billing process fast and accurate. At Inextrix, we provide a comprehensive Calling Card Solution to empower the calling card service providers with a widespread feature range.
Faxing Solution (FoIP)

Introduce e-faxing for your staff or customers with the Faxing Solution. The FoIP (Fax over Internet Protocol) solution lets you take benefit of a comprehensive eFaxing system, also known as Fax Server Solution. It supports three different modes of virtual Faxing.

Our Solutions

VoIP Billing Solution

VoIP billing and management solutions are the wisest choices for several providers looking for reliability and carrier grade performance by providing various services. This may include comprehensive call rates, offer flexible call plans, billing for call usage, LCR and different package offers, prepaid and postpaid VoIP services to get the maximum business fluidity.

Broadcasting Solution

Broadcasting solutions have been in demand since long due to its flexibility to fit into any industry such as Banking, Advertisement, Travel, Political, Announcements etc. Main benefit of using broadcasting solution is the high number of customer reach in small amount of time without any manpower used in it. Key feature is to schedule campaigns on predefined time and get reports out of that.
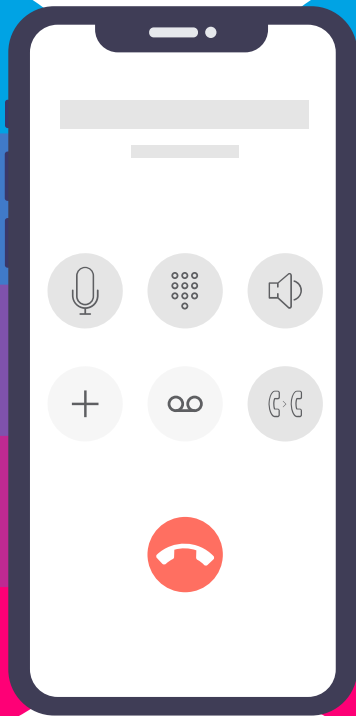

Video Conferencing Solution

Communication with various business entities is an indispensable aspect of any business. The modern business world has crossed the geographical boundaries and your team need to collaborate with different customers, prospects, vendors as well as team members working from different nooks and corners of the world.

Clients Speak

"I have worked closely with the software engineers of Inextrix for 2 years now and they have helped our business grow by improving our software in many ways."

- Dennis Spaan

"Prompt and Professional attitude towards the execution of the project. we would wish to work with you again. we were happy to receive the good quality output within the time limit."

- Samy Ashour

"We were looking for a reliable IP PBX solution as our conventional system had a lot of limitations. I'm happy with the solution and service provided by Inextrix. They gave us scalable IP PBX software and also integrated our CRM system and automated billing solution. This system increased productivity and ROI significantly."
- Naman Tahir

"The team at Inextrix really goes above and beyond. They are truly a great resource. Their quality of work and dedication to bringing projects on time and budget is something far too scarce in this space. They are a very professional group and have exceeded our expectations every time. I look forward to our next project!"

- Charles Phillips

"Hi, I just wanted to send you guys a quick message on how great its benn working with Inextrix for VoIP development needs, In last 3-4 years, you have been very responsive and always care about delivering the work as much as we do. I am grateful to found you such talented VoIP professionals who always believe in commitment and complete the task on turn time around."

- Albert Montgomery
